

## Coventry is here to assist you

We want to assure you that Coventry, DMEplus, and First Script have a business continuity plan in place to ensure we are fully operational and able to service our clients through Hurricane Irma as well as those still recovering from Hurricane Harvey.

We realize some businesses in the Southeastern United States may be affected by the severe weather in the coming days. We will remain open and available to take your questions and referrals. You can contact us with questions or make a referral [here](#).

Thank you for your business and continued partnership.
